Supportive seating
for **tiny kids**

Phoenix

Supportive seating for tiny kids

Simple tilt mechanism

Quick & easy seat removal

The Phoenix Buggy is designed to provide support from the very earliest opportunity. Overcoming the initial resistance to have a supportive system is very easy once parents realise that the Buggy isn't going to shout 'SPECIAL NEEDS!' on the high street.

The Phoenix seat unit provides a minimum seat size of 6" x 6" along with small scale postural support accessories to give you a seating solution for babies and toddlers

Standard curved headrest

Extended lateral support headrest
